

I Just Want To Say

Verse 1

When I think of all you've done

When I think of who you are

Pre-Chorus

I just want to say

Chorus

I love you, so in love with you

Verse 2

You're a friend, second to none

You thrill my heart with every word

Pre-Chorus

I just want to say

Chorus

I love you, so in love with you

Bridge

Just to look upon your face, and to listen to your voice

For your words bring calmness to my soul

With every chance I have, my thoughts are turned to you

In the noise of the crowd, I'm lifted away, I'm quietly alone with you

Chorus

I love you, so in love with you
