

This is Why I Love You

Verse 1

Imperfect as I am
You Still love me without measure
You've seen my damaged soul
Causing most to run a mile, but no not you
Cos you look past my shame
Forgive instead of blame

Chorus

And this is why I love you
Yes, this is why I love you
You're different from the rest
I feel safe, I feel blessed
This is why I love you
This is why I love you

Verse 2:

I don't need to pretend
As you know what I am feeling
You've seen me at my worst
And still I know you'll never leave me
When I just call your name
You take away the pain

Chorus 2:

And this is why I love you
Yes, this is why I love you
You're different from the rest
I feel safe, I feel blessed
This is why I love you
This is why I love you

Pre-Chorus:

In a world so full of fear
I feel safe when you are near

Chorus 3:

And this is why I love you
Yes, this is why I love you
And each and every day
I just call, you just say
That you really love me
That you really love me
And this is why I love you
This is why I love you.
